

Secretary Daniels, With Eye To Pacific, Announces Vast Naval Building Program

(Associated Press by Federal Wireless.)

WASHINGTON, October 13.—Secretary of the Navy Daniels yesterday announced a five-year building program which provides not only for a vast increase in the number of warships, but a big increase in the personnel and extremely large additions for Pacific waters. Construction in the first year would exceed that of succeeding years under the secretary plan.

The secretary says he will recommend to congress appropriations for from fifteen to twenty new dreadnoughts and battlecruisers in proportion to the number of sea-going and coast submarines, of which it is his desire to have constructed nearly one hundred.

Besides these classes the secretary will recommend appropriations for scout cruisers, torpedo boat destroyers and auxiliary ships. Seventy destroyers are included

in the plan and several scout cruisers.

Much significance is attached to the secretary's announcement. His intention to build up the Pacific defenses and to do most of the five-year construction work in the first year are declared to be the answer of the administration to the campaigns for better national defense.

The secretary, it is thought, is planning to make the navy so strong that the coast defenses will be relieved of much of their present responsibility. The large number

of submarines is regarded as a feature of the program. The battlecruisers the secretary wants would fill a big need in the navy, for at present the United States navy has no craft of this class.

His intention to increase the personnel recalls what is declared a woeful need at present. Recently a naval officer was quoted as saying that the navy lacked a third of the number of men required to man properly every ship in the navy.

Batteries—Chalmers and Burns; Shore and Cady. Struck out—By Chalmers 6, by Shore 4. Base on balls—Off Chalmers 3, off Shore 4. Attendance 41,096.

(Associated Press by Federal Wireless.)

PHILADELPHIA, October 13.—The Boston Red Sox of the American League and the Phillies of the National League will meet here this afternoon in what may be the last game of the series for the championship of the world.

The Red Sox arrived this morning, jubilant over their victory in Boston yesterday, where they won their third victory over Philadelphia by a score of two to one. They have blood in their eyes and intend to win the game this afternoon and clinch the championship if possible.

Alexander May Pitch

Pat Moran, manager of the Phillies, is said to be looking to Alexander to frustrate the Red Sox in their desire and the Quakers' star hurler may again be put on the slab. William F. Carrigan, manager of the Red Sox, has not used "Babe" Ruth yet and the southpaw may be given the opportunity of wrestling decisive victory from the national league champions.

The crisis in the series is expected to bring out more fans today than were out at Boston yesterday to cheer "Ernie" Shore, who was in the box for the Red Sox, to victory.

SHORE MAKES GOOD ON SECOND TRIAL

BOSTON, October 13.—"Ernie" Shore made good yesterday; he came back with a vengeance and redeemed his "lost victory" in the first game of the series when his good pitching went for naught because of the mechanical and mental errors of Boston.

The game was a battle of pitchers and George Chalmers of the Phillies lost. It was not until the eighth that Chalmers and his followers had a chance. Then the Quakers scored, Fred Luderus hitting safely. In no other inning did the Phillies threaten the Sox, although a bingle for one or two bases at several times would have brought in a man.

Shore Has Foe At Mercy

After Carrigan had chosen between Shore and Ruth in favor of the former and Shore had put his toe in the mound, the big right hander started to hurl over swift gyrating shoots that left the Phillies at his mercy.

Shore and Chalmers both worked well the first two innings. In the last of the third, however, the Sox touched Chalmers for a few well-timed out singles and scored. Then Chalmers tightened up and foston failed to hit him for two innings; Shore was tight most of

GERMAN SHIPPING DISORGANIZED BY BRITISH RAIDERS

Underwater Fighters Sink Many Vessels In Baltic Sea

(Associated Press by Federal Wireless.) COPENHAGEN, October 13.—According to reports published in yesterday's edition of the Politiken, the activity of the British submarines in the Baltic has disorganized German shipping to a very large extent. The number of British underwater fighters operating in German Baltic waters is not known, but it is believed to be many, with bases in the Gulf of Finland.

A large number of German ships have been sunk, either by torpedo or by the shell fire of the submarines, very few of the German losses being announced.

The E-19 is one submarine known to be operating, this vessel having sunk two more German ships yesterday. One of these, the ore carrier Noconadia, with iron ore from Sweden to Germany, was sunk yesterday morning.

Yesterday afternoon the German steamer Direktor Reppenhausen, a large steamer, was destroyed. What fatalities the Germans suffered are not known.

the time with the exception of the eighth, Philadelphia weakened in the sixth, however, and allowed Boston to score again.

In the eighth Luderus lined one out for Philadelphia and the Quakers got their only score. Then Boston came to bat and sent two men to first base. The next man went out and the next walked. There were three on bases, one out and Larry Gardner at bat, but Gardner could not hit beyond the infield, and the Quakers with a quick double play spoiled a score, but the Phillies failed to make good in the ninth and Boston then and there marked up its third straight victory.

Luderus Is Star of Day

Luderus was the real star of the day. This hard-hitting first baseman of the Phillies started rallies on two occasions with his hits and in four times at bat made three safe hits. But Boston's hits came at more opportune times.

Neither pitcher showed the control yesterday that had prevailed in other games. Shore walked four men and Chalmers gave three safe conduct to the initial bag. Chalmers struck out six and Shore four, so as far as figures go Chalmers had the best of it.

WILL PLAY ON COAST

SAN FRANCISCO, California, October 12.—It was definitely announced today that regardless of the outcome of the world series, the Red Sox and the Phillies will come to the Coast with every player for a special San Francisco series, beginning October 29.

BASE FOR SUBMARINES UNCOVERED BY BRITISH

Used By German Raiders That Sunk Several Troopships

(Associated Press by Federal Wireless.) ATHENS, October 13.—A submarine base, believed to have been used by German raiders in the Mediterranean, is reported to have been discovered by a British agent at Nauplia, on the southeast coast of Greece. Much petroleum and many supplies are said to have been seized.

It is from this base that the Germans are thought to have operated when they torpedoed several British transports with troops for the Dardanelles last summer.

Location of the base, it is understood, brought to an end a long search by the British agent. It had been suspected for a long time that the Germans had established a secret base in neutral waters, but to find it required many months.

PRESIDENT WILL NOT TRAVEL

(Associated Press by Federal Wireless.) WASHINGTON, October 12.—President Wilson announced definitely today that he will be unable to go to the Pacific Coast on his wedding trip.

CARRANZA WINS ANOTHER VICTORY

Captures Toluca and Prepares To Attack Guaymas, Western Villa Stronghold

(Associated Press by Federal Wireless.) MEXICO CITY, October 13.—General Carranza yesterday added another success to his long list of victories in the last few months. His troops captured Toluca, capital of the state of Mexico, which is the granary for Mexico City. This will end the peril of hunger in the capital, it is thought, as additional provisions, if needed, may be brought from there instead of being imported from Vera Cruz.

VILLA BASE IS MENACED

GUAYMAS, October 13.—The Carranzistas are about to deliver an attack on General Villa's western stronghold of Guaymas, the principal port on the western coast of Mexico, or may have it underway at the time this dispatch is published. The Carranza gunboat Guerrero, two transports and two schooners carrying troops are before the city. It is proposed to land the troops under the fire of the gunboat. Commander Thomas J. Stone of the United States cruiser Chattanooga has asked that the commander of the gunboat give the inhabitants of Guaymas information of his intention to begin a bombardment in time for them to reach places of safety, but refusal has been refused. The Mexican commander in reply sent a curt "It is not necessary."

The Villa garrison here is large and many preparations have been made to repulse the attack. They have not the support of the resident population, however, it is said. There are many indications that the residents will welcome the capture of the city by the Carranzistas, especially in view of the news that General Carranza will be recognized by the Pan American powers.

AMERICA DEMANDS FURTHER SECURITY

Tells Germany Subjects Must Be Safeguarded In Raids

(Associated Press by Federal Wireless.) WASHINGTON, October 12.—The United States, in a note which has been dispatched to Germany dealing with the case of the ship William F. Frye, sunk at sea by a German naval auxiliary, asks that if it is found necessary to destroy American ships carrying absolute contraband, the passengers and crew be removed to a safer place than the small boats to which they are sometimes consigned when the vessels are sunk.

The United States agrees to leave the settlement of the losses sustained in the destruction of the Frye to two experts, one from the United States, the other from Germany.

FRENCH PRESS CHAFES UNDER ITS CENSORSHIP

(Associated Press by Federal Wireless.) PARIS, October 13.—The dissatisfaction of the French press over the restrictions placed upon it by the war office have crystallized into an organized protest, which was delivered yesterday. The protest resents the suppression of news and it is claimed that foreign papers of allied and neutral countries are permitted to publish information which is withheld from them.

These daily injuries are not merited, the protest says, "and we have resolved to submit to them no longer."

CORONATION TO HELP JAPANESE CONVICTS

(Special Cable to Hawaii Shiping) TOKIO, October 13.—In commemoration of the coronation of Emperor Yoshihito the terms of all Japanese prisoners will be commuted on November 16. Some convicts will be pardoned and others will have their sentences shortened.

GOVERNMENT FILES BRIEF

(Associated Press by Federal Wireless.) WASHINGTON, October 13.—A 205-paragraph brief was filed in the supreme court yesterday in defense of the pending income tax cases in which heavier taxation of big incomes is declared to be proper in view of "the disproportionate share of governmental support borne by the poor under indirect taxation."

CHAMBERLAIN'S PAIN BALM

There is nothing so good for muscle pain, rheumatism, sprains, bruises, etc., as Chamberlain's Pain Balm. It will cure a headache, a toothache, a neuralgia, a rheumatism, a sprain, a bruise, a burn, a scald, a frostbite, a sunburn, a cold, a cough, a croup, a whooping cough, a diphtheria, a scarlet fever, a typhoid fever, a cholera, a dysentery, a diarrhea, a constipation, a flatulence, a indigestion, a heartburn, a hiccups, a nervousness, a sleeplessness, a weakness, a general debility, a loss of appetite, a loss of strength, a loss of memory, a loss of reason, a loss of senses, a loss of life.

BERLIN LAYS CLAIMS TO EASTERN SUCCESS

Russians Repulsed In Galicia and West of Dvinsk

(Associated Press by Federal Wireless.) LONDON, October 13.—Advices from Berlin give partial contradiction to the earlier report from Petrograd that the Russians have increased their gains in Galicia in the Stripa river district. The Germans claim they have repulsed counter attacks in this region.

The earlier report said the Russians had pierced the Austro-German lines and had taken 200 prisoners and much equipment.

A victory west of Dvinsk was claimed in despatches from the German capital last night. The German offensive there was said to have been pushed further, the Russian defenders of the town being thrown back toward their main defenses.

WILSON WAR POLICY PRAISED BY OKUMA

Extols United States For 'Setting Face Towards Peace'

(Special Cable to Hawaii Shiping) SAN FRANCISCO, October 12.—A message from Premier Okuma of Japan was read to the peace meeting here yesterday by Dr. David Starr Jordan in which praise was given the United States "for setting its face toward peace and against war."

The count's message declared racial prejudice the greatest factor making for war. Europe furnishes a great lesson to humanity in its blood and suffering, the count said.

The count said the peace movement could not be called new, for in Europe it was begun by Grotius, who advocated the calling in of a third power to settle international disputes.

YACHTS SUSPECTED OF WAR MISSIONS

Germans Are Said To Control Several American Craft

(Associated Press by Federal Wireless.) WASHINGTON, October 12.—A quiet investigation is being carried on as to the circumstances surrounding the use of several yachts in the Gulf of California, at Norfolk, Virginia, and Pensacola, Florida. British agents suspect that the yachts are being utilized by Germans to use against ships carrying oil from Mexico for the British navy.

A recent attack made on a British tank ship, according to the British, strengthens this belief.

Charges have been made that the officers of the two interned auxiliary cruisers at Norfolk are active in the plan, also claims are made that stations have been established in the West Indies by Germans for outfitting purposes.

BATTLE EFFICIENCY TROPHY IS AWARDED

(Associated Press by Federal Wireless.) NEWPORT, October 13.—With the admiral and 200 officers of the other divisions present, Capt. Albert P. Niblack, commanding the battleship Michigan, of the second division of the Atlantic fleet, was presented with the battle efficiency trophy here yesterday. A letter from President Wilson congratulating Captain Niblack on the showing of his ship was read.

CAPTAIN VON PAPAN PROBABLY WILL STAY

(Associated Press by Federal Wireless.) WASHINGTON, October 13.—Capt. von Papan, military attaché of the German embassy, who wrote a letter in which he referred to Americans as "those idiotic Yankees," probably will be permitted to remain here, as it is reported the government does not intend to make any protest to the foreign office at Berlin. No action of any kind will be taken against Capt. von Papan, it is said.

ITALIANS ARE RAZING GORIZIA AND TOLMINO

(Associated Press by Federal Wireless.) GENEVA, Switzerland, Oct. 12.—The Austrian city of Gorizia, which has been under siege for some time since the Italian troops began their offensive campaign, is about to fall. The Italians are also bombarding the inner defenses of Tolmino as well as shelling Gorizia.

TURK CRUELITIES ARE APPALLING

American Committee Tells In Detail of Atrocities Committed Against Armenians

(Associated Press by Federal Wireless.) WASHINGTON, October 12.—Further details of Turkish atrocities in Armenia, including massacre on a scale hitherto unknown, are reported to the state department by Ambassador Henry Morgenthau, the American plenipotentiary at Constantinople. Ambassador Morgenthau has advised the state department that Armenian massacres in Asiatic Turkey have been renewed since Bulgaria's action to enter the war as Turkey's ally has become known. He reports that the majority of Armenians in Asiatic Turkey have been killed.

COMMITTEE TELLS OF ATROCITIES

A preliminary statement of the committee on Armenian atrocities was given to the press a week ago, by Prof. Samuel T. Dutton, secretary of the committee, which comprises Charles R. Crane, Cleveland H. Dodge, D. Stuart Crane, Arthur Curtis James, John R. Mott, Rabbi Stephen S. Wise, Frank Mason North, Samuel T. Dutton, Stanley White, James L. Burton, William Sloane and others of New York.

The purpose of the formation of the committee was to investigate the reported massacre of non-Muslims in Turkey, and its relations to American interests and also to ascertain whether anything can be done to relieve the situation.

The statement follows:

"A sub-committee has thoroughly investigated the evidence and has just made report to the full committee, confirming in every particular the statement recently made by Viscount Bryce regarding the imprisonment, torture, murder, massacre and exile into the deserts of Northern Arabia of defenceless and innocent Armenians, including decrepit men, women and children, and their forcible conversion to Islam."

Written testimonials of witnesses have been examined with utmost care. The witnesses include Armenians, Greeks, Bulgarians, Italians, Germans, Turks, Englishmen, Americans, business men, travelers and officials of great variety and rank. Not a single statement can be questioned as to the facts reported. These all agree in the declarations that, from Smyrna on the coast to Persia, and from the Black Sea to Arabia, a propaganda of extermination on non-Muslims is now being carried on by the Turkish government, far surpassing in ferocity and exceeding in destruction anything done by Abdul Hamid during his long career of massacre and extermination."

The statements examined, many of which are in the possession of the committee, cover hundreds of towns and cities in which, in many instances, all of the Armenians have been killed out right, often after horrible torture, or sent to the desert to die of starvation. The ostensible deportation of men, women and children toward Mesopotamia is usually but a form of marching those starving, helpless and frequently naked refugees out into the mountains to be outraged and butchered, sometimes by their guard and sometimes by the Kurds.

Included among these refugees and victims are pupils and graduates from the American schools and colleges, teachers and professional men who have taken degrees in American and European universities, men and women who have represented the brains and enterprise of the country for a generation and more.

The plan of procedure, which is identical in all parts of the country, seems to aim at the complete extermination of all non-Muslim races from Asiatic Turkey, and already that aim is in fair way of accomplishment so far as the Armenians are concerned.

In several places American property has been seized, Americans searched, imprisoned or expelled from the country, their letters and telegrams, even from United States consular offices, intercepted and their lives put into jeopardy.

Evidence seems to prove that probably 500,000 Armenians have already been murdered or forced to the desert, where only death awaits them, unless relief is secured at once. And all this has taken place since March, and is now at the height of its gruesome fury.

COLUMBUS DAY AT FAIR

(Associated Press by Federal Wireless.) SAN FRANCISCO, October 12.—Weather was ideal here today for Columbus Day. It was a holiday and the crowds at the fair were immense. A number of bands played for the festive day.

TO CURE A COLD IN ONE DAY

take LAXATIVE BROMO QUININE (Tablets). Druggists refund money if it fails to cure. The signature of E. W. GROVE is on each box. Manufactured by the PARIS MEDICINE CO., St. Louis, U. S. A.

BULGARS BATTLE FOR ROAD LINKING ROMANIA WITH SEA

Attack In Serbia With View of Crippling Present and Expected Enemy

According to a despatch to The Post from Copenhagen the Kaiser has gone to the Serbian front. He arrived there yesterday, the despatch said.

It was openly admitted that the Serbian invasion is a serious problem for Serbia and her allies, and that all the Anglo-French efforts at the Dardanelles may go for naught unless the Teutonic invasion is halted.

Indications that the Russians will come to the aid of her allies in the southern field, however, and the possibility of Rumania being forced into the war on the side of the Allies are declared to be encouraging factors not to be lost sight of, for Rumania's addition to the forces of the Allies with the "benevolent neutrality" of Greece is expected to more than offset Bulgarian opposition.

NICHOLAS' TRANSFER CLEARED

News of the possibility of Grand Duke Nicholas heading a Russian army in the Balkans is received with the suggestion that this may explain why he was relieved of command of the main Russian army recently. It is hinted that the czar knew in advance of the Serbian invasion, and believed the Grand Duke the man to send there, in view of the weakening offensive of the Germans on the eastern front.

The Bulgarian minister to Great Britain was handed his passports yesterday afternoon, according to the Central News Agency.

BULGARIANS BEGIN ATTACK

PARIS, October 13.—The Bulgarians are battering at two Serbian positions, according to advices here, with the object of gaining possession of the railway from the Danube to Uskub and Salonika, connecting Rumania with the Aegean Sea.

This information is considered trustworthy of despatches from London saying there are indications that Rumania is preparing to cast her lot with that of the Allies.

If Bulgaria can cut off Rumania's connection with the Aegean Sea she will be placing a big obstacle in the way of her expected as well as her present enemy, Serbia.

JAPANESE MAY TAKE PART

TOKIO, October 13.—In light of developments here there is a possibility that Japan after all will send troops to Europe to aid her allies. They would be dispatched to the Balkans, it is thought, if Japan agreed to the plan.

The return of Baron Ishii from the ambassadorship of France to become foreign minister, and the presence here of Hughes Leroux, editor of the Paris Matin, has reopened the question.

The presence of the two men is believed to presage a full reconsideration of the international situation.

WESTERN FRONT SCENE OF GENERAL FIGHTING

British Are Preparing To Inaugurate Another Offensive

(Associated Press by Federal Wireless.) LONDON, October 13.—Activity all along the western front continues and it is reported the British are preparing to make another offensive.

The fighting consists chiefly of artillery duels, but from the British lines an unusually heavy fire is being directed against the enemy.

The German offensive has ended, it is reported. The enemy contented itself yesterday with replying to the artillery of the British and French and opposing a number of sallies from the trenches. No decisive trench fighting, however, is said to have taken place.

THIRTEEN JURORS WILL SIT AT SCHMIDT TRIAL

(Associated Press by Federal Wireless.) LOS ANGELES, October 12.—Thirteen jurors will be selected to sit at the trial of Max A. Schmidt on the charges of conspiracy to murder, as a result of the Los Angeles Times' disclosure in 1910. One more than the ordinary number of jurors is being selected, so that in case of sickness or other excuse the case will not be stopped. Four jurors have been passed so far. It is expected that the jury will be selected this week and testimony begin next Monday.

TEUTONS BATTLE TWENTY MILES INTO SERBIA AS BULGARS ATTACK

Capital May Be Moved From Nish To Monastir As Result of Austro-German Invasion and Prepare To Advance From North

Capital May Be Moved From Nish To Monastir As Result of Austro-German Invasion and Prepare To Advance From North

Capital May Be Moved From Nish To Monastir As Result of Austro-German Invasion and Prepare To Advance From North

Capital May Be Moved From Nish To Monastir As Result of Austro-German Invasion and Prepare To Advance From North

RUSSIA AND ROMANIA MAY JOIN BALKAN FIGHT

Grand Duke Nicholas To Command Muscovites—Kaiser Directing Big Drive—Japan May Send Troops to New War Zone

(Associated Press by Federal Wireless.) LONDON, October 13.—Although the defensive fight the Serbians are waging against the Austro-Germans, who have invaded from the north and west, and against the Bulgarians, who opened active hostilities yesterday by launching an invasion near Vlasina, is enabling the Serbs to inflict heavy losses upon their enemies, the pressure is too heavy to be withstood successfully and the invasions are making headway to such an extent that the Serbian government soon probably will be withdrawn from Nish into Macedonia, and located temporarily at Monastir, near the Greek border.

Teutons Gain Twenty Miles

The Austro-German advance has been pushed forward for twenty miles, yesterday reaching the city of Semendria, due south of Belgrade, while the Bulgarian invasion is aimed at the Nish-Belgrade railroad, the object being to put the communication between the Serbian northern front and the capital. The Bulgars have been held close to the border but are reinforcing their front steadily and the opposition of the Serbians cannot long withstand the assault.

It is understood here that Italy will not cooperate with the Allies in the Balkans, claiming lack of troops sufficient to divert any large force from the Austro-Italian borders, but the participation of Russia in Serbia is expected and it is reported that the Grand Duke Nicholas will be recalled from the Caucasus to take command of the Allies' forces in the Balkans as commander-in-chief.

Russians To Join Serbs

The Russians will be fighting with their Serbian allies today, if Premier Viviani of France was quoted correctly in despatches here last night. It was said that the premier, addressing the chamber of deputies yesterday afternoon, declared "Russian troops will be fighting alongside those of her other allies in the Balkans tomorrow."

He declared the Allies were in complete accord and that ample troops were available to meet the new Teutonic campaign without weakening those on any of the present fronts.

RUMANIA READY TO FIGHT

In this connection, Rumanian alignment with Russia is presaged and evidence is accumulating that Bulgaria is preparing for an attack from the north. Yesterday it was learned that the civil population of Widin, a Bulgarian city on the Rumanian frontier, facing the Rumanian city of Kalafat, across the Danube, had been ordered to leave, the city to be taken over by the Bulgarian troops to be placed in a condition for defense.

Bulgarian engineers are also engaged in placing mines in position along the Bulgarian bank of the Danube, while at the various possible landing positions a large force of soldiers and civilians are preparing earthworks, the work going on at a feverish pace.
